

FUNDRAISING PROGRAM

Kids Photography Academy is an online classroom designed to teach kids the art, science and fun of photography. Students and parents will both love these fun, kid-friendly and creative online photography lessons.

Here's why KPA is an ideal partner for your school or club:

No Organizational Headaches

The process is easy! Orders are placed directly on the KPA website and purchasers immediately receive access to the KPA lessons. No deliveries to coordinate. No money to be counted. We'll provide all the reporting to your school. All you need to do is promote the program at your school.

Receive 50% Commission

During your fundraising period, 50% of purchases made by your school's community will go directly back to your school. That's \$7.50 right back to your students for every lesson ordered.

Foster Creativity in Kids

Successful fundraising programs require a product that families love. KPA photography lessons inspire kids, giving them a voice to express themselves with a medium they love. It moves their bodies and their minds while challenging them to find new perspectives. And a great benefit for parents is the starting point that their kids' ideas and images provide for many quality conversations.

Email us at click@kidsphotographyacademy.com for more information or to get started. We'll provide you with a welcome package and information to make your fundraising program a success.
